+VG Team Member Caroline Schaeffer to help build a school and teach english in Nicaragua.

One of our team members Caroline Schaeffer is going to Nicaragua this September for approximately three months to share her teaching skills of the English language with children in Nicaragua. Caroline has volunteered before in Nicaragua to build schools and to help others expand their English skills.

We are not surprised with her desire to go, she is an outgoing and vibrant member of the +VG Team. Although it is a temporary teaching stay, we will miss her while she is gone. Caroline really enjoys the social interaction with her students and of course the inviting Central American climate.

Caroline will be sharing her knowledge as a volunteer in an informal teaching environment. It is the pleasure and satisfaction of sharing her knowledge and skill of the English language with the Nicaraguans that keeps drawing Caroline back, According to Caroline

“I will be helping the Deaconesses and Teachers implement an English element to the existing church school curriculum. The elementary school aged students go to public school either mornings or afternoons, and then have the option of a church school when they are not in Public School. That is where I will be assisting the

Deaconesses. The ages will range from 5 – 12. I will be staying in Chinandega, Nicaragua and going to various church schools in the city and surrounding villages. I am trying to raise money for the trip since it's all volunteer and funded by myself and any generous donations to my trip.” Although not expected, any amount of support would be appreciated as Caroline is taking personal time off to offer her help to the Nicaraguan children. Any amount of support would help Caroline defray her travel expenses. All contributions are a charitable tax deduction and a receipt will be issued to any generosity offered. you can contact her through email at +VG

Info:

- Tenure for three months – their semester finishes at the end of November before summer vacation
- Opportunity to get involved in the local community when I am not teaching.
- Previous volunteer trip was a combination of teaching children & fixing up a school house.

+VG Architects is a full-service architectural firm offering new design, expansions and heritage restorations for cultural, educational, municipal, justice, healthcare, residential and recreational facilities. Our staff of 40 operates in four offices in Ontario, in Brantford, Cambridge, London and Toronto. See www.plusvg.com for more information.
